

Practical 07 (Web Designing - CM2104)

Name: Yash Pravin Pawar Enrollment no.: 2106206 section: N1

Q. Applying border properties: Create a webpage with paragraphs, headers and information of your choice, apply and practice the following effects on a webpage:

- Set all top border properties of a paragraph in one declaration.
- Set style of button border for a paragraph.
- Set the width of the left border.
- Assign different colors to four borders. Use hexadecimal color assignment.
- Set rounded border for some paragraphs.
- Set border width to the header.

Output:

Code:

```
<!doctype html>
<html>
  <head>
    <title>Practical - 7</title>
    <style>
      header {
        border: 5px solid red;
      }
    </style>
  </head>
  <body style="background: linen; border: 3px dashed #5a63ff;">
    <header>
      <h2>This is a header</h2>
      <p>7. Set border width to the header.</p>
    </header>

    <h1>Applying Border Properties</h1>
    <h3>Set all top border properties of a paragraph in one
declaration.</h3>
    <p style="border-top: 3px solid lightblue;">
