

Practical 11 (Web Designing - CM2104)

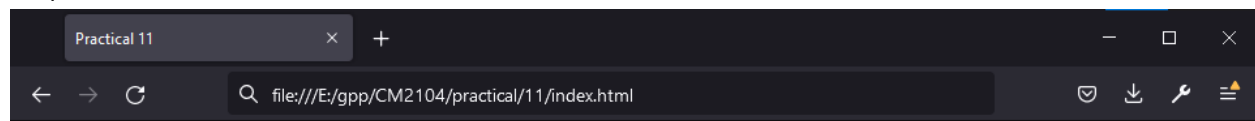

Name: Yash Pravin Pawar Enrollment no.: 2106206 section: N1

Q. Create a webpage that provides a form for filling in information. The webpage must contain the following elements:

- Textbox
- Radio Buttons
- Checkboxes
- Buttons (Submit/Reset)
- Text area
- Textbox for passwords

Design the form properly for some task: Example- Login creating/Registration etc. Provide appropriate Labels to all form elements to guide users into filling the form.

Output:

Sign UP

Full Name:

Email:

Username:

Password:

What interests you more?

☐ Frontend

☐ Backend

☒ Full-Stack

Remarks:

☒ I Agree all Terms and Conditions

Code:

```

<!doctype html>
<html>
  <head>
    <title>Practical 11</title>
  </head>
  <body>
    <h1>Sign UP</h1>
    <form>
      <label for="name">Full Name:</label>
      <input type="text" name="name" maxlength="50" id="name" placeholder="John Doe">
